

THE JUMPING SYSTEM - PRINCIPLES

- ♦ The 2 most important words in riding are Line & Pace.
- ♦ The horse's body must stay straight between the rider's legs and the reins.
- ♦ The horse must be able to track in a straight line.
- ♦ The horse must be able to carry a consistent pace and that pace must be adjustable.
- ♦ The horse must be able to work off of the outside hind leg.
- ♦ The horse's front end must be light.
- ♦ The horse must be able to be slightly bent in the direction of travel through a turn.
- ♦ The horse must finish each line that it has started by squaring off his turn while working off the outside leg.
